Overview

Aspiring Full Stack Developer with a robust skill set spanning both frontend and backend technologies. Proficient in crafting engaging and responsive user interfaces using ReactJS, HTML, CSS, and JavaScript, while also possessing deep expertise in backend frameworks like Flask and Node.js, and databases such as MySQL. Demonstrates a solid understanding of Google Cloud Platform along with strong proficiency in Python and JavaScript. Passionate about contributing technical expertise to innovative full-stack development projects, bringing a comprehensive and integrated approach to software development.

Education

Bachelor of Technology (Computer Science & Engineering)

Feroze Gandhi Institute of Engineering Technology | Raebareli, Uttar Pradesh | 2019 - 2023 | CGPA: 8.04

Skills

Front End: HTML, CSS, JavaScript, React.js

Back End: Python, Flask, Fast, Node.js, PHP

Tools: Postman, Git, OpenAI, Docker, GitHub, Jenkins, CI/CD

Database: MySQL, MongoDB, Oracle

Other: WordPress, Google Cloud Platform, Firebase, Apache Beam, Jira, Trello

Experience

Full Stack Developer

Sprilio Tech | July 2023 - Present

- Orchestrated direct collaboration with diverse global client base and overseas development teams to decipher requirements, prioritize tasks, and cater to their unique needs; ensured seamless communication flow and alignment on project goals.
- Quickly adapted to emerging technologies such as OpenAI, effectively integrating them into project scopes and priorities while ensuring adherence to project timelines and deliverables.
- Significantly enhanced website speed by 50%, resulting in a notable 20% increase in user retention.

Projects

Bookvid

Sprilio Tech | bookvid.com | July 2023 – March 2024

- Spearheaded the comprehensive development journey of Bookvid, a dynamic application, by architecting and executing front-end and back-end components seamlessly.
- Employed React.js and Next.js to craft responsive and engaging user interfaces, harnessed Python with Flask to establish a resilient server-side framework, and coordinated deployments proficiently on the Google Cloud Platform.
- Innovated new workflow processes that streamlined operations and reduced turnaround time by 25%.

TextPal / Open AI Assistant

Sprilio Tech | test.phonalyze.com/chatbot | Dec 2023 – Present

- Engineered a sophisticated chatbot utilizing OpenAI Assistant for advanced natural language processing. Seamlessly integrated into a web application, enhancing response accuracy by 30%. The chatbot operates with React.js as the frontend framework and Node.js and Twilio for the backend, ensuring robust functionality and seamless performance.
- Enhanced TextPal's repertoire by integrating SMS functionality, achieving a 50% increase in user engagement. Empowered users to engage with the ChatGPT-powered assistant via text messages on their mobile devices, regardless of online status, expanding accessibility by 40%.

Food For the Poor

Sprilio Tech | foodforthe poor.org | March 2024 – Present

- Contributed to the development of a website for Food for the Poor, a Forbes Top 17 NGO, using WordPress.
- Enhanced code efficiency with PHP and JavaScript.
- Implemented Zoho CRM with Flask integration, enhancing user management and marketing automation, resulting in a 30% improvement in data accuracy and a 25% increase in operational efficiency.
